Tim Cook discussed with the Selectmen some of his concerns on the future. The Fire Department's reporting system is a disaster, Tim reported. He is going through all the reports and revising them and simplifying them. Tim said he is trying to get the inventory report up to date also. DJ asked for a copy of the inventory as soon as he has it for the insurance company.

Bruce Taylor asked Tim if there was any assistance the Selectmen could be with getting the paperwork up to date. Tim said at this point there is not much for them to help with. As soon as the reports are up to date, he said, he would like to call for an inspection.

Tim mentioned that he wants to make digital copies of all the files. The hard copy files will be kept at the town office.

Tim discussed the pump truck and equipment status and that he sees it as being replaced. The cost to repair would be too high to make repairs financially viable. Some long range planning is needed and he want to be realistic with his goals and expectations. Tim will get the Selectmen some replacement and repair figures, he told them.
